Sustainable Wellness Solutions

Resilience Through Peer Strategies

Dear community partner, December 2024

Sustainable Wellness Solutions, formerly Consumer Self Help Center, is proud to announce our new name, logo and updated vision and mission.

Over the last year, our organization has undergone a comprehensive review of our core competencies and organizational strengths. With the help and input of our peers and staff, we have chosen a name and brand identifiers that better reflect the nature of the services we provide while staying true to our roots as a peer run organization. We are proud of our rich history and wish to build on the success of our peers so that we continue our legacy of providing the highest quality of services with kindness and compassionate care as our operational standard.

We will continue to conduct business as Consumers Self Help Center on the financial/contractual side for 1-year, but we will move forward in the public's eye as Sustainable Wellness Solutions, formerly know as CSHC during that time frame as well. To-date our website, email correspondences, and some marketing materials have been updated. Through the remainder of the fiscal year we will ensure remaining materials, community resources, and public correspondences are changed over. The good thing to know is our CSHC emails remain active and forward to our new email domain.

Moving forward, our organization will:

- Continue to provide the same services, in the same manner, with the same focus as you have come to expect.
- Reflect the highest quality of standards that have been the hallmark of our organization since 1989.
- Serve our community with a collaborative and innovative mindset.
- Honor the work of our peers, staff, and founders that have paved the way for our success.

We thank you for your continued partnership and look forward to working together in the years to come.

Please do not hesitate to reach out if you have any questions.

Thank You,

Tiffany C. Murphy, MS | Executive Director
